## Summary

UI/UX and graphic design enthusiast with a background in Computer Science Engineering and experience supporting design and branding initiatives for early-stage startups. Proficient in Figma and Canva, with an interest in usability, visual hierarchy, and digital experiences. Seeking a UI/UX design internship to apply and grow design skills in real-world projects.

## EDUCATION

Name of Course	Year	University/Institution	Marks
B.Tech CSE	2023-27	Seth Jai Parkash Mukand Lal Institute of Engineering & Technology (JMIT), Radaur, Yamuna Nagar	7.42 cgpa
CBSE (Class XII)	2023	P.R. Public School, Muzaffarnagar	66%
CBSE (Class X)	2021	The Doon Valley Public School, Devband	68%

## WORK EXPERIENCE

### UI/UX & Graphic Designer – Independent Exposure at Tech In Nutshell (2023 – 2024)

- Assisted in UI/UX and graphic design work for an early-stage startup
- Contributed to content design, visual branding, and digital communication concepts
- Supported ideation and creation of creatives and layouts for LinkedIn and marketing use cases
- Gained practical understanding of design's role in startup visibility and growth

### Shopify Developer Intern at Meta3 Infotech (2026 – Present)

- Assisting in Shopify-based web development and theme customization
- Designing logos, banners, and digital creatives for web and marketing requirements
- Collaborating with the team to maintain visual consistency and improve UI presentation

## POSITIONS OF RESPONSIBILITY

### Convener/President – TUNIC Club (Things U Need In Corporate), JMIT (2024–Present)

- Led a 60+ member team in organizing corporate training and personality development events
- Coordinated planning, execution, and promotion of events
- Designed promotional materials and managed team communication

## ACADEMIC PROJECTS

### UI/UX Design for Online Book Shopping App

- Designed wireframes and interactive prototypes using Figma
- Focused on user flow, readability, and intuitive navigation

### AI-Powered Research Assistant

- Used AI tools (ChatGPT, Gemini, Perplexity) to summarize research papers
- Generated structured academic notes to improve study efficiency

### Sentrix — AI-Powered Sentiment Analysis Platform

- Built a full-stack web app (React, FastAPI, MongoDB) that uses HuggingFace and Azure AI to auto-classify government eConsultation stakeholder comments by sentiment
- Implemented secure auth, interactive dashboards, and Excel export; deployed on Vercel and Render

## SKILLS

- Design Tools: Figma, Canva, Google Workspace (Docs, Sheets, Slides, Forms, Sites etc.), Microsoft Workspace (Word, Excel, Power Point etc.)
- Design Skills: UI Wireframing, Basic UX Thinking, Visual Hierarchy, Layout & Spacing
- AI Tools: ChatGPT, Gemini, Perplexity
- Programming Basics: HTML, Python, C, C++
- Soft Skills: Creative Thinking, Problem Solving, Communication, Team Leadership
